

Looking At the Numbers...

Sarah Warburton

...anyone can see that Dr. Subodh Chauhan's one of the top fertility doctors in the country. Trained in United Kingdom, as well as the United States, he's triple board-certified and passed his Reproductive Endocrine Boards on the first try...in the top percentile! But that's only part of the equation. When you begin your personal journey, you need a doctor who'll walk with you every step of the way...not stand at a distance. Dr. Chauhan's credentials are impressive, but it's his warmth and accessibility that make a real difference for each and every one of his patients at the

Fertility Specialists of Houston.

From consultation to ultrasound, you can trust your path to parenthood with FSH. Dr. Chauhan says, "At our Sugar Land location, we offer every treatment that we do at the medical center, except for the actual egg retrieval for IVF." Dr. Chauhan and his wife—a physician in the NICU at Methodist—and their two sons also live right here in Sugar Land. You'll enjoy the expertise of one of the nation's largest and most successful In Vitro Fertilization programs... close to home.

How could one fertility solution be a perfect fit for everyone? Dr. Chauhan really takes the time to understand all the unique aspects of your individual situation. He says, "I've had patients where the problem was solved when we diagnosed a thyroid disorder, and other patients where we explored every avenue. Fertility is an ever-evolving, cutting-edge field...but not every solution needs to be high tech. When you come in, we'll spend time considering your situation, and we'll take things one step at a time." You'll work with Dr. Chauhan directly from your initial evaluation through all the stages of the process...and if you need IVF

and Transfer, Dr. Chauhan also does those personally for all his patients.

At FSH, you'll have access to a variety of seminars and support groups, an amazing staff of nurses and technicians, and Dr. Chauhan's unfailing compassion and experience. Patients appreciate the attention he gives to every concern...in their talks together, in his prompt response to emails, and in his availability. He says, "Having the opportunity to care for people makes every single appointment of every day special... and bringing the miracle of life to families is the most exciting thing in the world!"
