

# Making Dreams Come True

Sarah Warburton

Over and over doctors told Ria Allen that she might never be a mother. She says, "I'd been having trouble with my fertility for about ten years, and had been diagnosed with polycystic ovarian syndrome. My husband, William, and I were almost ready to give up on our dream of building a family, when we visited Dr. Chauhan. I'd read that he was one of the top specialists in Texas... but he and his staff showed us the kind of warmth and care I've never experienced in a doctor's office. They feel like family...and they made our dream come true!"

When Ria walked into Dr. Subodh Chauhan's office with the Fertility Specialists of Houston, she had almost lost faith that she would ever have a baby of her own. She says, "Dr. Chauhan told me honestly what my options were and how difficult some of them would be. Before I left the office, I wasn't sure what my insurance would cover, so they called for me. When I found out that I was covered for in-vitro, that's we chose. I couldn't wait to get started!"

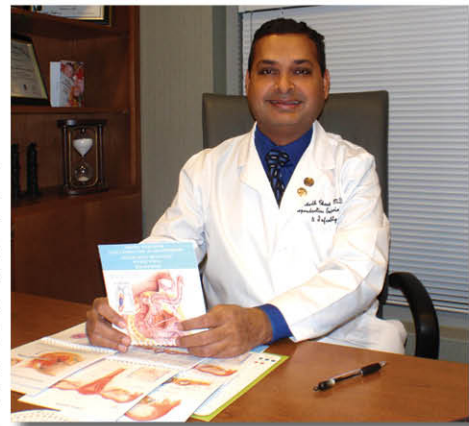

Ria's struggle wasn't over... but Dr. Chauhan and his staff walked her journey with her. She says, "His nurses Debbie and Chris really looked after me and

took care of me during my weekly visits. I had an absolute nervous breakdown the first time I had to give myself an injection at home, so I called Dr. Chauhan on his cell. Even though I'd just gone through the class, he was so

patient and he talked me through every step. The day we got the positive test results, Debbie walked into the room with Dr. Chauhan and I could tell from the smiles on their faces that I was pregnant. They really rejoiced with us and it felt fantastic to know they were in our corner."

Little Tyler Allen is due to arrive in early April, and his excited parents-to-be can't wait to introduce him to Dr. Chauhan! Ria says, "Dr. Chauhan really sees you as a person, not just a patient. He made all this possible for my family and there are no words to say how incredibly thankful I am for this amazing gift. I can't wait to be a mom!"
